

3M™ Cubitron™ II Roloc™ Disc 984F DE

Product form Disc
Mineral type Precision Shaped
 Ceramic Grain
Backing Polyester Cloth / YF-Weight
Fixing system Roloc

- ▶ 3M Cubitron Roloc Disc 984F uses proprietary Precision Shaped Ceramic Grain to produce exceptionally fast cut rates in high pressure applications on mild and carbon steel
- ▶ Disc life is significantly longer thanks to the self sharpening grain design allowing for completion of more parts per disc and requiring fewer disc changes
- ▶ The durable edge design also ensures edge wear is kept to minimum
- ▶ Time-saving 3M Roloc attachment system locks disc securely into place with a short twist by hand, making disc changes quick and easy
