

AF799

Made in Germany

VSM ACTIROX

Grain type	Ceramic
Bonding	Full-resin bonded
Colour	Dark Petrol
Backing	Vulcanised fibre
Production width	1,470 mm

Materials

Features

The geometrically shaped ceramic grain generates maximum stock removal when machining unalloyed steels and aluminium. A fast cut and an extremely long service life lead to a significant increase in productivity. Clogging of the fibre disc is significantly reduced, particularly when grinding aluminium.

Grit sizes:¹⁾

Benefits

- > Maximum stock removal thanks to geometrically shaped ceramic grain leads to a reduction in operating costs
- > More than twice as much stock removal compared to conventional ceramic grain abrasives
- > Increase in productivity: More workpieces per unit of time due to fast cutting
- > Extremely stable dimensions and a durable vulcanized backing satisfy the highest safety requirements
