CYLINDRICAL
VISOR WITH
PROTECTIVE FILMS

UniMask®

There is no one perfect visor for all your tasks

Now you can chose from multiple visor options for optimal performance

CYLINDRICAL VISORS – CR1

Our new cylindrical visors are avialble in two material options, polycarbonate or cellulose propionate and are both compatible with peel-off protective films.

Both visors offer class 1 optical quality and ensure a wide field of vision. Polycarbonate visor provides protection against high-speed particles with low energy at extreme temperatures (FT). The visor is suitable for grinding, drilling, sawing etc. Cellulose Propionate visor features very high chemical resistance and meeting requirements for mechanical strenght (S) according to EN 166. The visor is suitable especially for painting.

Product description	Art.No.
Spare protective visor CR1, clear, Cellulose Propionate, cylindrical	729100
Spare protective visor CR1, clear, Polycarbonate, cylindrical	729101
Protection film for CR1 visor, pack of 10 pcs	729120/10

TORIC VISORS – TR1

Outstanding toric polycarbonate visors offer the highest optical quality and unlimited clear view.

Advanced anti-scratch coating increases the mechanical durability and extends the life time of the visors significantly compared to conventional visors. Provide protection against high-speed particles with medium energy at extreme temperatures and at the same time against molten metals and hot solids.

Product description	Art.No.
Spare protective visor TR1, clear, polycarbonate	729000
Spare protective visor TR1, yellow, polycarbonate	729001
Spare protective visor TR1, shade 3, polycarbonate	729003
Spare protective visor TR1, shade 5, polycarbonate	729005

If you like superb clarity of vison but need increased chemical resistance, you can pick our new amorphous polyamide visor (aPA).*
It can be easily cleaned by most of common solvents. **

Product description	Art.No.
Spare protective visor TR1, clear, aPA	729090

* Not suitable for use in ATEX zone.

** Do not clean with acetone or alcohol based solvents.

UniMask®

Multipurpose protective faceshield

PROTECTIVE HOODS UNIMASK®

Extend your protection by simply clicking the protective hood over your UniMask®.

Made from lightweight microporous polypropylene or washable antistatic fabric. Available in two lengths.

Product description	Art.No.
Protective hood UniMask®, short	720360
Protective hood UniMask®, long	720361
Protective hood UniMask®, long, washable	720362

INNER AIRFLOW REGULATION

Individual control of direction and intensity of the air inside the mask for increased user comfort

QUICKLY EXCHANGEABLE FACE SEAL AND VISOR

The visor has can be easily removed and attached back to the hood. The face seal ensures secure and comfortable fit for the wearer. The face seals can be washed in a washing machine and even dried in the dryer.

UniMask®

Light universal faceshield providing the highest comfort and safety

The highest level of breathing protection. Enhanced inner airflow regulation and a visor with excellent optical and mechanical features make this universal light face shield a true leader of its class. UniMask® is light and offers excellent user's comfort. The inner airflow regulation allows the user to set direction and intensity of the air to be delivered to the forehead or to the front of the mouth.

The users can opt for a soft textile or a neoprene face seal according to their preferences. The visor provides clear and undisturbed view of the highest quality (class 1 according to EN 166), high mechanical resistance and the anti-fog coating.

FEATURES AND BENEFITS

- The highest class of breathing protection TH3
- Enhanced inner airflow regulation
- Light weight – only 380 g
- Excellent optical quality EN 166 class 1
- High mechanical resistance of the visor
- Anti-fog / anti-scratch coating
- Safety helmet compatible

reddot winner 2020
best of the best

AREAS OF APPLICATION

UniMask® is suitable for many kinds of grinding and other surface finishing operations and by heavy duty maintenance. It is convenient for use in the building industry, automotive industry, shipbuilding etc. Convenient for construction applications including protection against respirable crystalline silica dust.

TECHNICAL DATA

Parameters	Specification
Weight	380 g
Material	UniMask® frame – Polyamide Faceseal – Neoprene or 3D polyamide knit Visor TR1 – Polycarbonate or amorphous polyamide Visor CR1 – Cellulose propionate + ABS or polycarbonate + ABS
Hose connection	QuickLOCK™
Certification	EN 166 1 FT B 9 K N [visor TR1, polycarbonate] EN 12941 TH3 [NPF 500] EN 14594 3B [NPF 200] EN 166 1 FT [visor TR1, polyamide] EN 166 1 FT [visor CR1, polycarbonate] EN 166 1 SN [visor CR1, cellulose propionate]
