

Welding helmet MOST PYXAR PI

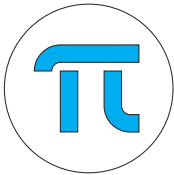

Welding helmet **MOST PYXAR PI** is the latest model in the MOST PYXAR line. In addition to the distinctive helmet shell design, comfortable and highly adjustable headgear, specially formed thick external protective lenses, and integrated rear head protection against welding spatters and backlight, the new **PYXAR PI** features the advanced, digitally controlled auto-darkening filter

MOST PX1000A, offering:

- an extra-large viewing area of 100 x 82 mm,
- 6 arc detection sensors,
- automatic shading selection function,
- new SPOT function for spot welding..

The helmet is suitable for all welding methods. After pressing the GRIND button located above the auto-darkening filter, it also becomes suitable for grinding operations.a.
