

SUREGRIP A-LW
MIG/MAG SERIES

Welding Tools for the Professional

A Smart Approach

Parker Torchology is shaped by people with vision, a passion for improvement and a belief in delivering the very best Welding and Cutting Torch Range in the World.

We expect a great deal from our products, so we ask a lot of ourselves and our engineers.

Our mantra: **Innovation, Technology, Performance.**

DNA

Design and Engineering excellence are at the core of everything we do.

Every torch we build is driven by our relentless pursuit of perfection.

Premium Features

At Parker Torchology we do things differently, we strive to solve your problems with the perfect product to suit your needs. We create smart product features encased in cutting-edge design to ensure you always have the best tools to hand.

Production

A fusion of precision production engineering, our bespoke processing techniques and a fanatical attention to detail ensures every welding torch we produce is worthy of the Parker Torchology name.

Testing, Testing, Testing

It takes patience to develop a new product, it's a lot more than a great idea.

Product development is an iterative process, trying something over and over, changing one small variable at a time.

We build endless prototypes and test pieces that undergo months of rigorous testing. Only once a product has passed up to 88 different test procedures, with every single part tested separately do we consider our latest designs ready for market.

Partners

Our customers and business partners play a vital role in our development. With the core aim to strive together, we work with end-users, distributors and academic institutions alike.

As a result we share fundamental values in order to succeed in our respective market places, supporting economic growth and collaborative opportunities with others.

A Bright Future

Technology doesn't stand still, which is why we are constantly innovating to bring you the best products on the market.

Our strong vision and focused innovation strategy, not to mention our passion to revolutionize the industry, ensure that Parker Torchology is a byword for excellence.

We Talk Torches

Suregrip A-LW Mig/Mag Torch Range

Air-Cooled Features Focus

Air-Cooled

A new series of Suregrip BZL products with screw on nozzles and innovative lightweight cable sets.

Welding Tools for the Professional

100% Binzel® ALW Compatibility Guaranteed

Quality Wear Parts

All wear parts are manufactured to the same specification as the original manufacturer ensuring reliability, longevity and superior performance

- Contact tips are manufactured using high quality copper alloys
- Self insulated, screw on nozzle

Ergonomics – For Comfort and Handleability

Every detail has been considered to ensure the welder has the very best handling in all positions

- Screwless designed handle with maximized soft grips for improved balance and positionability
- Torch handles disassemble in 5 seconds for rapid fault analysis
- The addition of a knuckle joint enables small movements of the handle and neck independently of the cable assembly
- Cable supports are designed to combine flexibility with smooth and consistent wire feed

"Plug and Play" Configurability

One + Plus system configured to your exact needs

- "Plug and play" switch interchangeability in seconds! - try it!
- Switches are available with standard and extended lever options
- Micro-switch options for repetitive start/stop applications, digital power source control or harsh and dusty environments

Features Focus

World Class Welding Performance

Swan Necks

Engineered For Extended Service Life

- Superior neck insulators are made from aluminum for enhanced service life
- Polymer armored neck for increased durability and insulation integrity

Superior Flexibility, Durability - and Lightweight

Duraflex Ultralite

- Duraflex Ultralite cable sets offer the ultimate in heat and abrasion resistance, with the added benefit of being 30-40% lighter

30%-40% Lighter

Ease of Maintenance

Functionality and ease of repair

- Screwless design solutions. Euro housing sets ensure minimum downtime and productivity – No tools required!
- The Euro body has been redesigned to improve gas seal integrity in Argon applications.
- Our spring pins – often copied,,, can't be beaten

The Smart Way To Buy Welding and Cutting Tools
